

Product Specification

Type	Beamer Light
Light Source	High Power LED
Product Range	10W, 20W,30W,40W,60W,90W
Lumen Output	110 lumens per watt
Color	Cool white , warm white
Voltage (input)	220V – 240 V AC 50Hz
Driver	Constant current electronic driver Voltage :220V – 240 V AC 50Hz Power Factor : > 0.9
Material , Construction & Finish	Housing: Aluminum Extrusion LM6 Optic: Lens Paint : metallic paint (Powder coat)
Classification	IP 65

We Offer

- Project Management.
- Trunkey solution & service covering
 - Lighting design
 - Product supply
 - Testing & commissioning
 - Installation
- Maintenance
- Lighting energy management scheme including energy audit
- Up lamping solution
- Assured Pay Back
- Finance Scheme available

Product Features

Casting	High pressure die casting for effective thermal management, sturdiness and excellent corrosion resistance
Lense	Specially design cover with prismatic optic to spread light and reduce direct glares
Led	LED as light source offer very long life as compared to conventional source
Driver	Electronic driver with > 0.9 P.F. Wide operating voltage range of 100V – 300 V
Eco friendly	Environment friendly with no mercury content Prewired for easy installation High lumen output
